KEY SKILLS

- Basic knowledge of programming languages (C/C++ / Python)
- Typescript
- Basic knowledge of Computer Networks
- JavaScript
- Angular
- Teamwork
- Ability to learn quickly

INTERESTS

- Strength training/ Running
- New Technologies
- Movies and TV-series
- Computer Games

FOREIGN LANGUAGES

English: B2
Polish: native

SOCIAL MEDIA AND PORTFOLIO

SUMMARY

I am a graduate of Electronics and Telecommunications at the AGH University of Science and Technology in Kraków. I have experience working with the Linux system and am familiar with the basics of C/C++ and Python languages. Currently, I am developing towards programming and machine learning/AI. I am looking for opportunities to develop in Angular, and I see my professional future with this language. I am independent, ambitious, and ready to work in a team. I successfully defended my engineering thesis in March. The project focused on *Podcast Optimization* and utilized Machine Learning techniques.

EDUCATION

Bachelor of Engineering: Electronics and Telecommunications,
10/2021- 03/2025, **AGH University of Cracow**

EXPERIENCE

Software Developer Internship (07/2025 – 09/2025)
Comarch

I was part of a team developing a product for a business client. My main responsibility was building and maintaining the frontend using Angular.

PROJECTS

Podcast Optimization – Automatic removal of non-substantive segments from podcasts using machine learning techniques.

- **Technologies:** Python, TensorFlow
- https://github.com/faynie11/Podcast_Optimization

Weather App - Simple Weather-App in Python with a several useful functionalities e.g. SMS Notifications.

- **Technologies:** Python, SQLite3
- https://github.com/faynie11/Weather_App

Scientific Calculator - Calculator to convert number systems.

- **Technologies:** C++, CMake, GoogleTest
- https://github.com/faynie11/Calculator_for_IT

Pedometer - Counts the number of steps and the number of steps per minute.

- **Technologies:** C, microcontroller FRDM-KL05Z
- <https://github.com/faynie11/Pedometer>

Cinema App – A web application with login roles, where admins manage movies and screenings, and users can book or cancel reservations.

- **Technologies:** Angular 18, ASP NET 8 Web API, PostgreSQL
- https://github.com/faynie11/Cinema_WebApp
